Dear Sir,
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above named matter. I am sorry to hear that you are not satisfied with the result of the investigation. I have, however, no objection to your making such use of the facts as you may think proper.

[The name of the person to whom this letter is addressed is written in the margin.]

Yours very truly,
Wm. L. Garrison

E998 — S.r.c. — Franciscans in England. — Clarisses.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system has solutions for all values of the parameters α and β if and only if the condition $\alpha + \beta > 0$ is satisfied. In the case when $\alpha + \beta < 0$, the system has no solutions.

2. The second part of the paper is devoted to a detailed analysis of the case when $\alpha + \beta > 0$. It is shown that the system has solutions for all values of the parameters α and β if and only if the condition $\alpha + \beta > 0$ is satisfied.

3. The third part of the paper is devoted to a detailed analysis of the case when $\alpha + \beta < 0$. It is shown that the system has no solutions for all values of the parameters α and β if and only if the condition $\alpha + \beta < 0$ is satisfied.
